

Making Faces

Chris Landreth

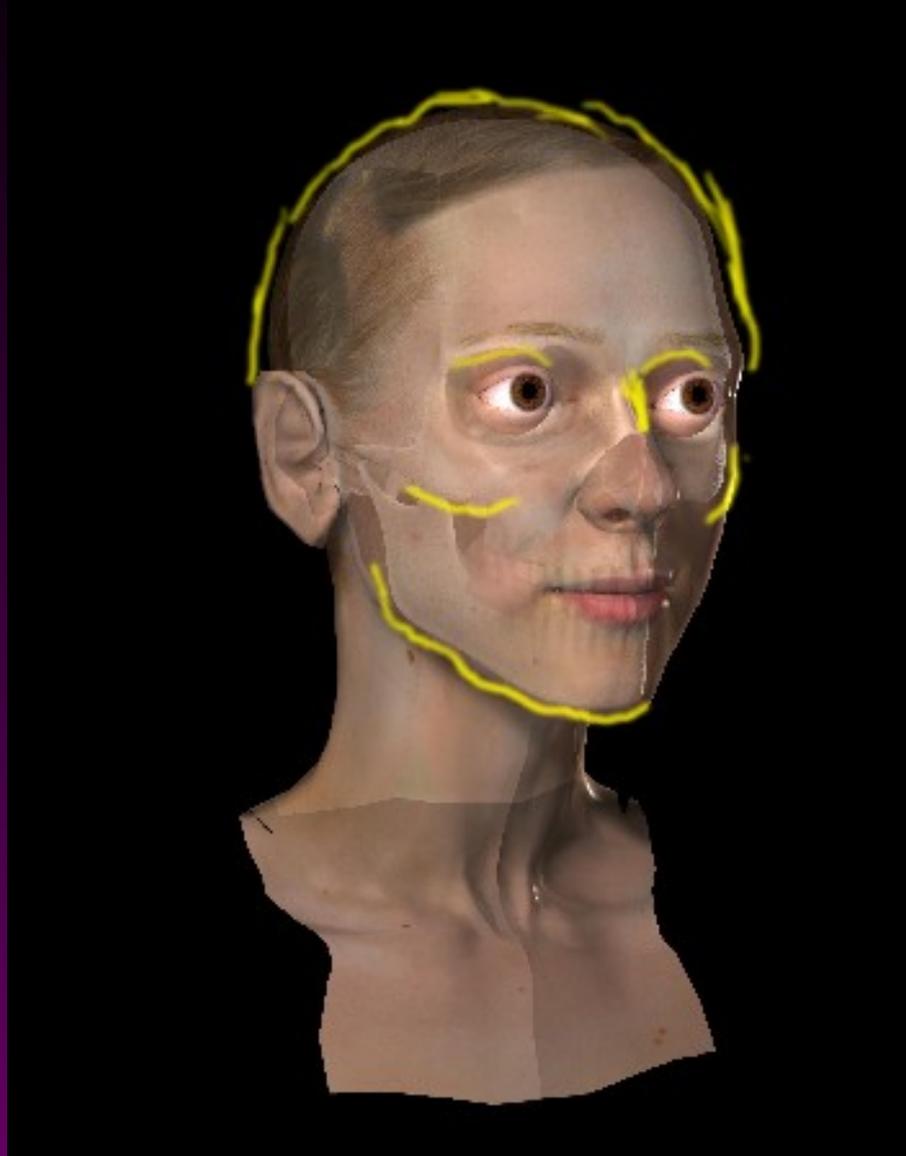

CSC2529, University of Toronto

Session 2: The Skull

The Human Skull

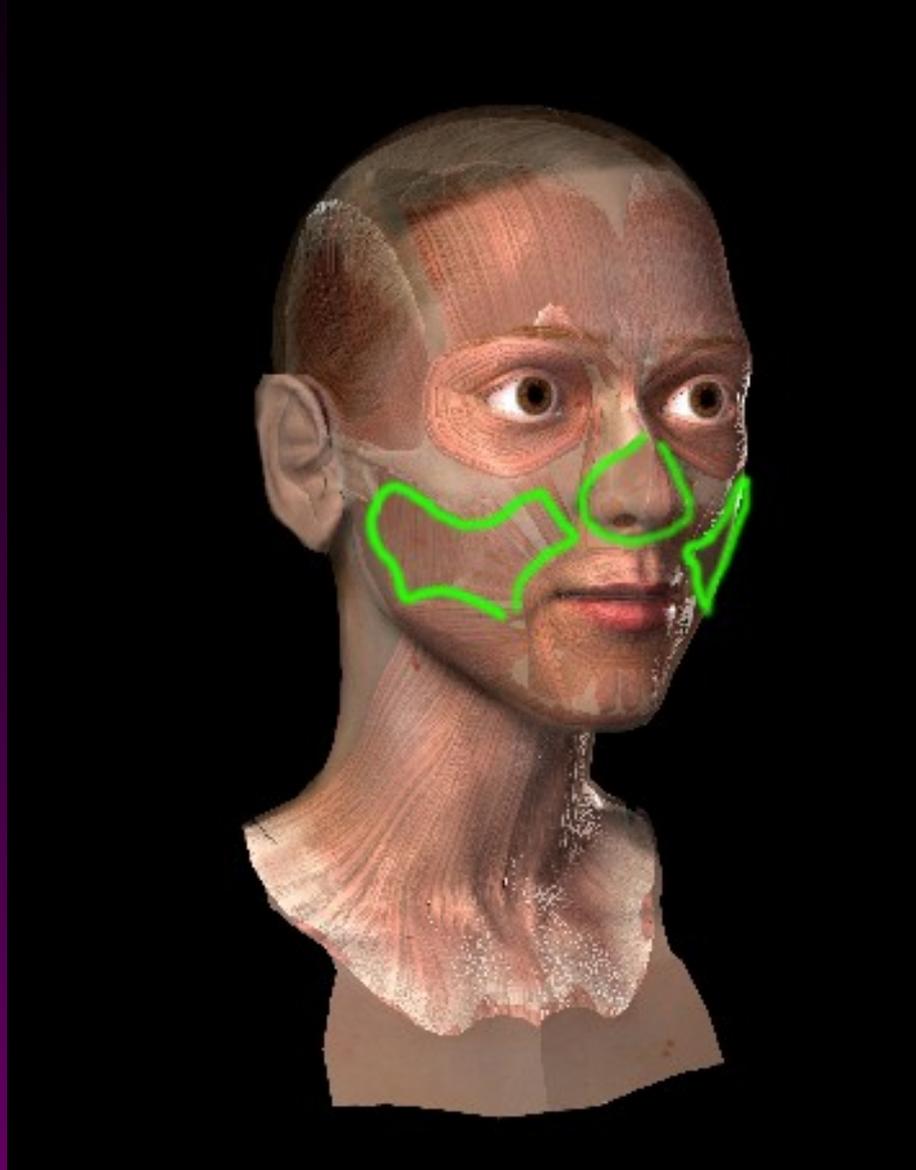

Skull defines the chin, jawline, cheekbones, bridge of the nose and the top of the head...

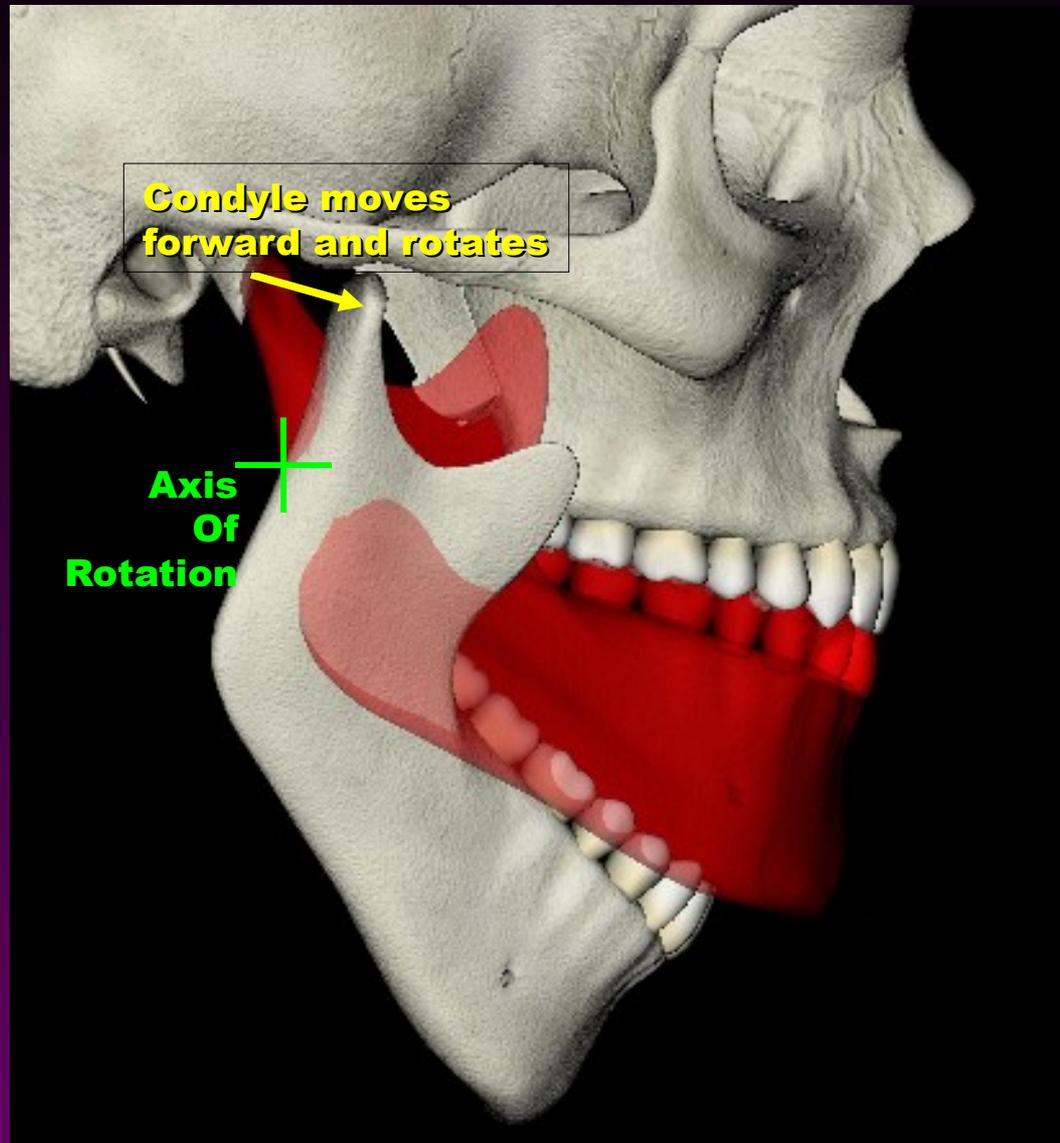

Muscles define the areas around the eyes and mouth...

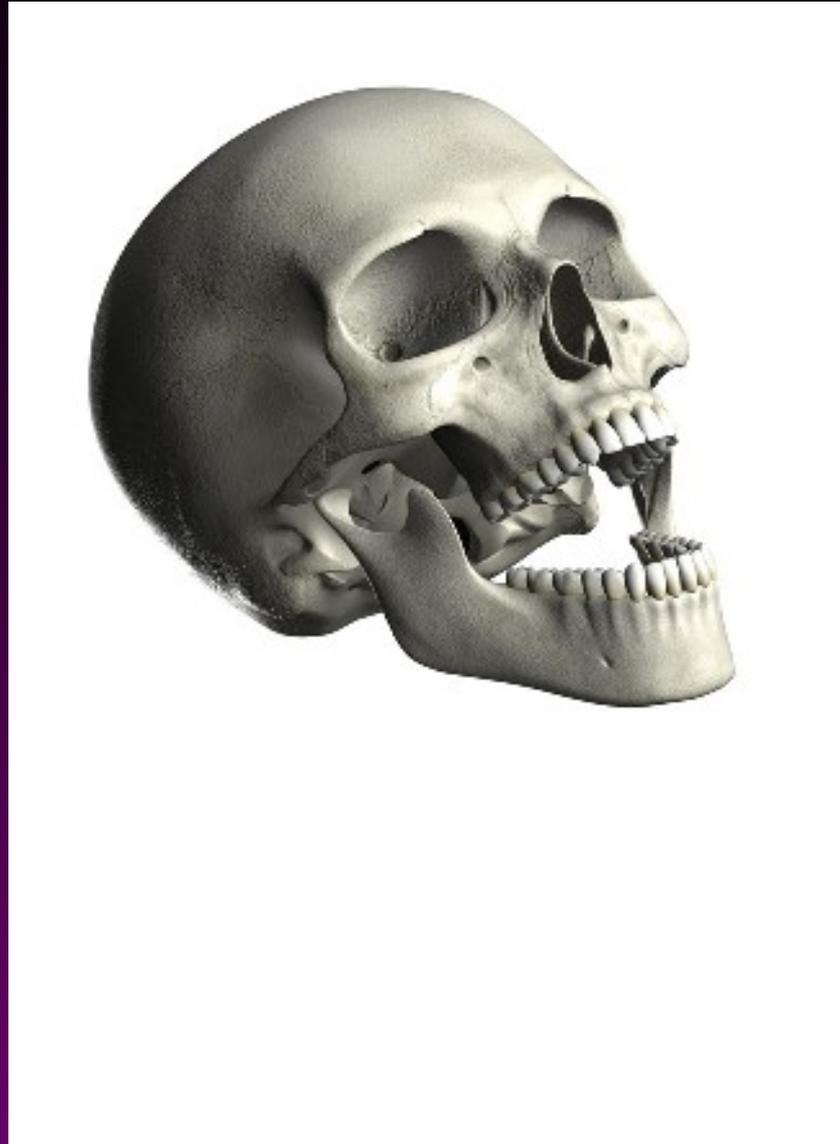

Fat and Cartilage define the nose and cheeks...

Opening the Jaw

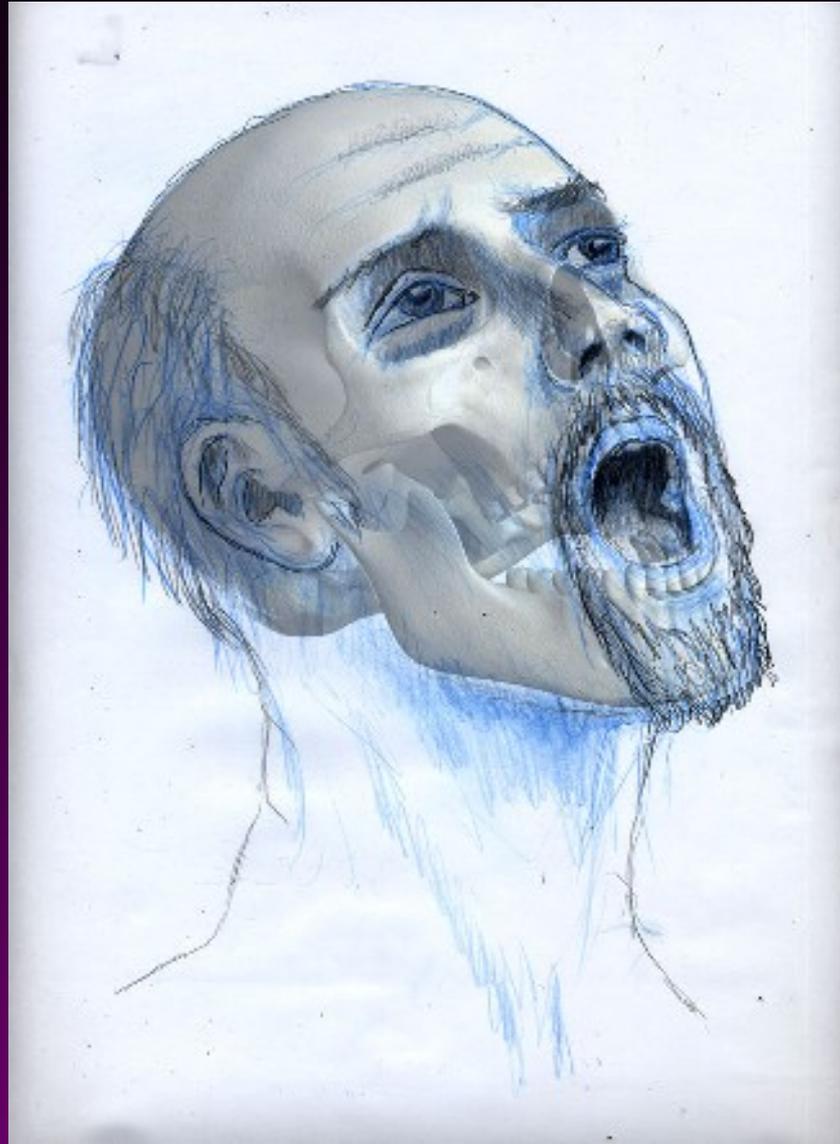

Drawing Exercise: Inside Out

**Start with an
image of a
skull...**

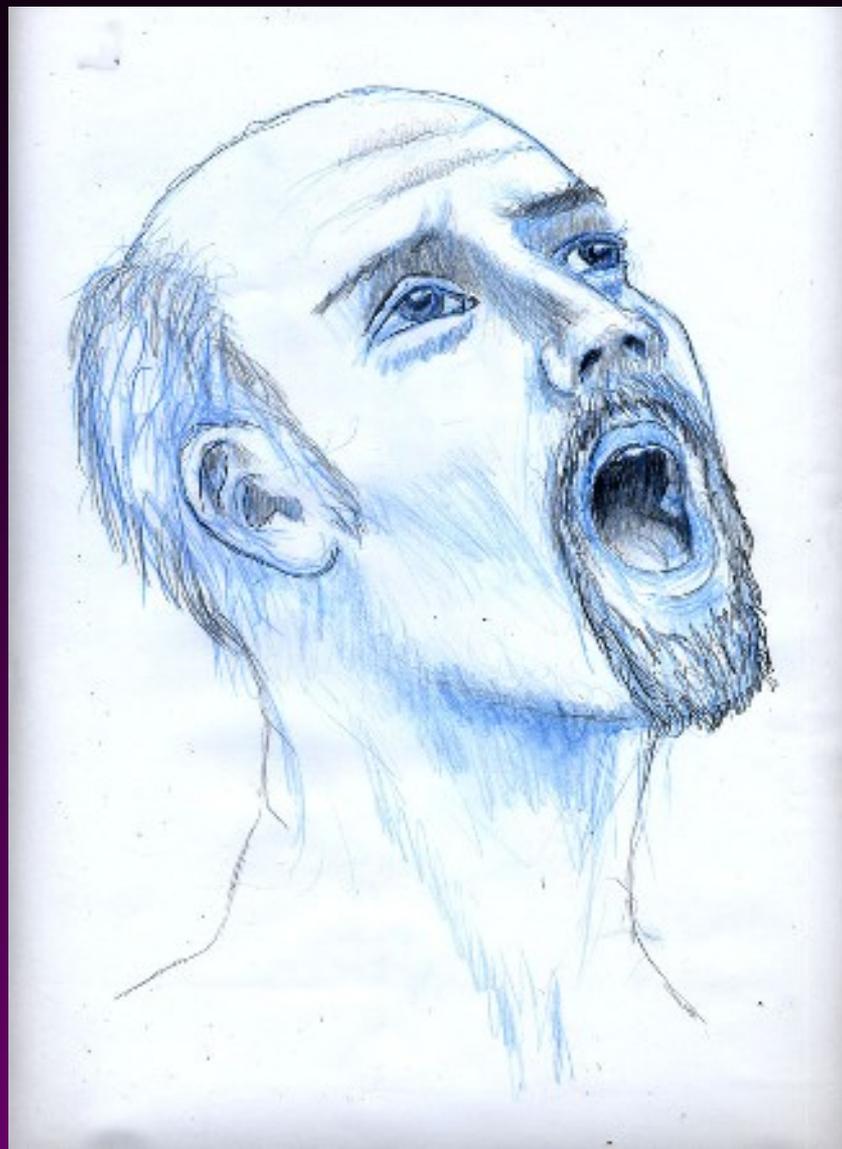

Drawing Exercise: Inside Out

**Start with an
image of a
skull...**

**...Draw the
face around it.**

Drawing Exercise: Inside Out

Homework (for Monday Jan. 24):

1. Do two drawings of “Valley Girl” (from the quicktime movie provided on this site).
2. With tracing paper and images of the human skull provided on this site, do two “Inside Out” drawings.
